

BKT-M620

Remaco is proud to introduce the new BKT-M620 Mobile LED Lifter.

The BKT-M620 consists of a mobile case that houses a large LED display. Setting up is fast and easy, which makes it very practical to be deployed in external events. Incorporated with a motorized lifter, the height of the LED display can be adjusted instantly on site through remote control or wired switch. No intensive set up required.
